**ABSTRACT**

*The abstract very concisely describes the contents of your paper. It states simply what work you undertook, your results and your conclusions. Ensure that the abstract remains within the range of 200 to 250 words in italics. Strict adherence to the margins and style indicated here is crucial. Kindly note that the manuscript you prepare will be reproduced and printed exactly as it is received. The readability of the text is crucial.*

**Keywords:** About five key words separated by comma in alphabetical order

**SECTION MAIN HEADINGS**

The **main headings** or the first level headings should be written in all caps (Times New Roman, Bold, Font size 12).

The **subheadings** or the second level headings should be written in Title case (Times New Roman, Bold, Italics, Font size 12).

Follow the below order in whole manuscript.

**1. INTRODUCTION**

**2. METHODOLOGY**

**3. RESULTS AND DISCUSSION**

**4. CONCLUSION**

**CONFLICT OF INTEREST**

**ACKNOWLEDGEMENT**

**REFERENCES**

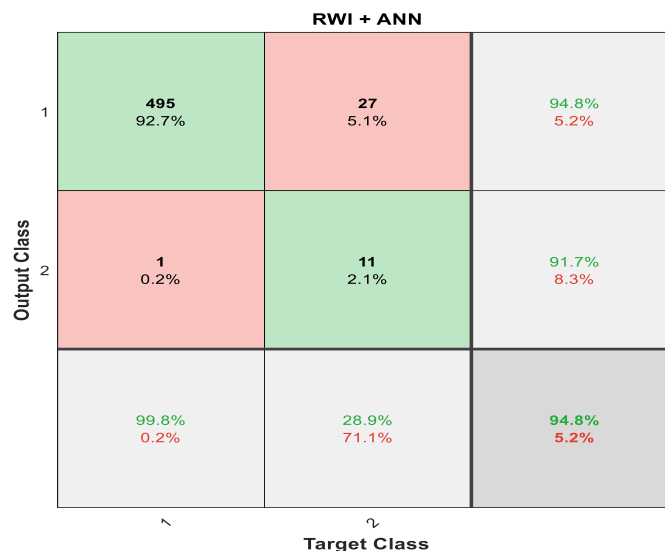

The introduction clearly states the object of your work, its scope and the main advances you are reporting. It gives reference to relevant results of previously published work. The results and discussion section states your results compared with recent works and their potential implications. The references in the paper should be cited according to the 7<sup>th</sup> edition of the **American Psychological Association's style**. Reference citation should be always in square brackets and before the punctuation [Author name, *et al.*, year]. References should be presented in alphabetical order in references section with DOI.

**FIGURES AND TABLES**

Prepare figures in good quality that are clear, easy to read and place properly inside the manuscript. **Figure** captions should appear below the figure in bold. Figures should be numbered in the order they appear in the text and cite properly (Eg. As shown in Figure 1). **Table** captions appear centered above the table in bold and cite (Eg. Table 1) in manuscript.
